

**Conserving
Our
Water...**

**It's in your
hands.**

Do the Right Thing.

what can
YOU
do?

Rutherford County is experiencing exceptional drought conditions. Flows in the Broad River are at record lows.

Broad River Water Authority

A Stage I Water Shortage Condition is in effect in the service area of the Broad River Water Authority, North Carolina. All residents, businesses and institutions should voluntarily adhere to the following conservation practices to help avoid implementation of mandatory restrictions.

- Limit car washing to a minimum.
- Limit outdoor watering to only that which is necessary.
- Do not wash down outside areas such as sidewalks, patios, parking lots, service bays or aprons, etc.
- Do not leave faucets running while shaving, brushing teeth, showering or rinsing dishes.
- Water plants to the minimum required, reusing household water when possible.
- Limit use of clothes washer and dishwasher operating only when fully loaded.
- Use showers rather than a bathtub for bathing. Limit showers to no more than 4 minutes.
- Limit flushing of toilets by multiple usage.
- Use disposable or biodegradable dishes .
- Use flow-restrictive and water saving devices.
- Limit hours of operation of water cooled air conditioners.
- Residents, businesses and institutions are requested to temporarily delay new landscape work until the water shortage has ended.
